

## COURSE DESCRIPTION

# Managing Hitachi VSP Midrange Storage with Embedded GUI 1045CI

### Who Should Attend

- Storage Administrator

### Level

- Associate

### Availability

- Customer
- Partner
- Employee

### Follow On Course(s)

- Managing Hitachi Ops Center Administrator – TSI2929  
or  
Managing Hitachi Ops Center Administrator – TSP2929

### Delivery Type

- Instructor-led
- Virtual Instructor-led

### Course Length

- 1day

## Drive your next-gen midrange storage performance with an embedded GUI

This foundational course focuses on basic administration and provisioning tasks associated with Hitachi Virtual Storage Platform (VSP) midrange products using embedded GUI management software, Hitachi Storage Advisor Embedded (HSAE) and VSP One Administrator for VSP One Block 20 series servers. You will explore the embedded GUI dashboard features to create and edit pools, volumes, servers, and manage ports. Further, you will learn when to use the embedded management software, and when it is more appropriate to use other options such as Hitachi Ops Center Administrator and Command Line Interface.

The course offers various hands-on lab activities which will enable you to practice common storage operations in a safe virtual environment using the management software.

### Digital Badge

You will receive the **Hitachi Virtual Storage Platform Midrange Family Management with Embedded GUI** digital badge once you complete this course.

### Course Objectives

When you complete this course, you should be able to:

- Describe the features of the embedded management software and its operations
- Provide a high-level overview of the components of VSP midrange servers, which are directly related to the management software
- List basic features of Hitachi Ops Center for storage management
- Explain the uses for Ops Center Administrator and Ops Center Clear Sight for storage management
- Provide a comparison between the features of HSAE with Ops Center Administrator and Clear Sight
- Describe how REST API CLI can be used to perform the same functions as the embedded GUI and when it can be used

### Course Outline

#### Content Module

- Overview of Hitachi Virtual Storage Platform (VSP) Storage with Hitachi Management Tools

**Your roadmap to professional growth starts here!**
